The conferees agreed to the Senate position to curtail all operational activities conducted by the Army in the National Foreign Intelligence Program at the end of fiscal year 1982. Accordingly, 50.5 million and 12 spaces were reduced from the fiscal year 1983 GDIP. The conferees agreed to retain 50.3 million for DIA to complete the third year of a 3 year research contract. Future funding -- if any -- of this research and experimentation activity should be budgeted outside the NFIP.
